## LET'S TALK TRAINING

Have you ever wanted to teach a course for your squadron but would be too nervous to stand up and instruct in front of students?

Are you comfortable working with computers?

Would you be interested in teaching an online course where you can sit at home in your pj's and help someone through a boating course?

CPS is introducing a number of online courses and need tutors to help students.

The education department will be working with a program called "MOODLE".

I have no idea how it works. If you do or would like to help out, please let me know at 905-389-5719 or [ronwarby46@gmail.com](mailto:ronwarby46@gmail.com)
